

Good morning everyone from your Reception teachers.

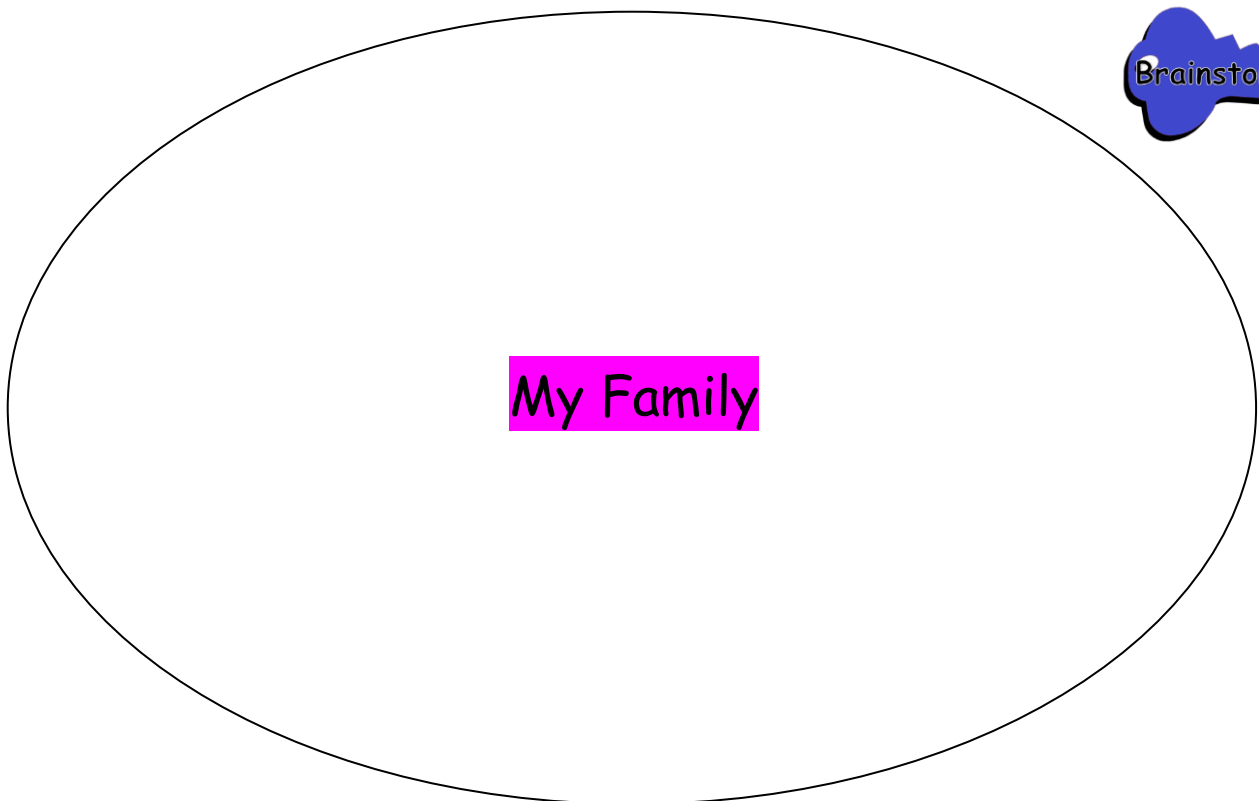

We hope that you are keeping well and safe.

We have decided to make home learning fun, we are going to have a different theme each week or so.

Our 1st theme is - My Family.

Today, we want you to do a brainstorming circle map to name all of your family. Include anybody who is an important part of your life, including your pets.

My Family

We are going to revisit all of our learnt phonics letters and sounds but this time in alphabetical order. Can you learn the alphabet song? We are going to use your yellow book to make an Alphabet book which you can add to overtime. If you have already written in it, you can make your own book, or use it from the back to the front for your Alphabet book!

Today's letter and sound is Aa.

We understand that it is hard to think about your learning, but you can be a great learner and teacher too. Use the websites that we use in school, such as Cbeebies Numberblocks; Cbeebies Alphablocks, Cbeebies Bedtime stories and other excellent topic programmes.

Keep reading, keep counting, keep writing and drawing, keep playing games with your family, and have fun.

Talk tomorrow.
